

# Welcome to the Foundation Stage

The foundation stage has two classes who work together to create an enriched learning environment for all of the children. The two classes are named White Tigers and Brown Tigers.

‘We are clever,

We are cool,

We are the tigers of St. Botolphs School!’

The teachers in the Foundation Stage are Mrs Duthie, Mrs Wardman and Miss Kendall-Day, with Mrs Dakin and Mrs Myers supporting.

The Tigers at St. Botolphs like their class because:

I like being at school because the teachers look after me, and I’ve got new friends.

I like making models on the busy table.

I like playing in the rocket space area and we learn all about the moon.

I like playing with my friends.

I like everything at school, even the teachers!

I like the writing table and the writing wall.

I like making books with writing and pictures inside them.

I like it when we do writing. Oh yes! And doing phonics.

I like to do everything at school! I like phonics and maths and playing outside with my friends. I like going into assembly too!

I love my teachers because they help me learn.

If I fall over or hurt myself the teachers help me and this makes me feel safe.

I like playing with the bikes and putting the numbers in the buckets.

I like snack time when we have milk and fruit.

I like to play on the scooters and the climbing frame outside.

I like drawing space pictures and learning new facts at school.

I like to play in the sand with the moon boots on its funny!

I like going on the computer and iPad. Sometimes we play on busythings.

I like reading and writing. All the teachers help me and I like doing lots of learning.

I like playing in the water and making bubbles.

I like it because we can play in the sand outside and inside.

I like playing on the bikes and putting the right names in the buckets.

I like it in our class because we have a writing table with lots of pens and pencils.

The Teachers like it because “we love to work and play with the children and see the huge progress they make during the year.”
